

## CL20 Automatic Cheese Block Loader

### Description

The Cryovac® CL20 is a fully automatic pouch loader designed for large cheese blocks up to 40 lbs. (20 kg). The CL20 is designed to handle pre-made, gusseted pouches which are boxed and ready to be inserted into a stainless steel cassette. CL20 Bag Loaders are sold in conjunction with the RG20 re-gusseter, IN20 conveyors, and Mercer's BetaVac, BetaTest, and BetaTurn systems. This Sealed Air Food Care Cryovac® system is the most efficient system for vacuum packaging large cheese blocks. Plug in modules are designed for quick servicing and product changeovers including a pick and place module, alignment chute, bag opening module, gripper system, and spreader plates.

### Key Benefits

OPERATIONAL  
EFFICIENCY

- Eliminates labor required to load product into bags
- Eliminates labor positions that are prone to injuries and repetitive motion
- Plug in modules for quick servicing and product changeovers

FOOD  
SAFETY

- Reduces the risk of contamination by elimination of human contact
- Runs with Cryovac® Gusseted Pouches which provide superior oxygen barrier and aggressive sealant technology to protect your product from the outside environment

SHELF LIFE  
EXTENSION

- When used with Cryovac® Gusseted Pouches and vacuum packaging, protects the product's freshness, color and flavor throughout distribution
