

Engineered for performance, sustainability, brand building and consumer convenience.

SEE® makes it easy for seafood processors and retailers to differentiate by combining extensive knowledge of consumer and market insights with innovative solutions.

Fresh Seafood VSP Film: CRYOVAC® brand Darfresh® 10K OTR is a highly permeable film that complies with FDA regulations for fresh seafood. This film can be paired with your choice of bottom carrier available in an assortment of sizes and substrate options to customize your offering. This innovative solution enhances sales with striking 3D presentation and premium appearance.

STAND-UP POUCH

IDEAL FOR: Frozen, IQF

Available in a wide range of film types with varying degrees of barrier protection. With a variety of unique material solutions, you can select the best option for your custom packaging applications. Available in a variety of gauges, sizes, and finished pouches.

SEMI-RIGID ROLLSTOCK

IDEAL FOR: Fresh, Frozen, Smoked

This thermoforming rollstock is available with PET or recycled PET for added sustainable benefits.

RIGID TRAY WITH VSP/LID/OVERWRAP

IDEAL FOR: Fresh, Frozen, Pre-prepared

Create all types of case-ready packaging for overwrap, MAP, and vacuum skin applications. Available in a variety of sizes, colors and tray configurations with varying degrees of sustainable benefits.

SOLUTIONS AVAILABLE:

Carriers: Preformed VSP, Overwrap, MAP and HydroLOQ MAP Trays
Lidding/Film: Darfresh® 10K, BDF, SES

DARFRESH® ON BOARD VACUUM SKIN PACKAGING

IDEAL FOR: Fresh, Frozen, Smoked

Combines a clear, highly formable VSP top film with a cardboard bottom carrier that lets you leverage 2-sided printing capabilities. As a result, helping you enhance your brand presence while differentiating your product on shelf.

READY MEAL SOLUTIONS

IDEAL FOR: Frozen, Pre-prepared

Our portfolio of ready meal applications are available in a variety of microwaveable and ovenable solutions that are designed to cook or re-heat prepared meals and frozen foods. These no-prep, easy open solutions, offer consumers convenience with easy cleanup.

SOLUTIONS AVAILABLE:

Simple Steps® Meal Packaging, Oven Ease® Bags

10K OTR BAG

IDEAL FOR: Fresh

A highly permeable bag that meets FDA guidelines for fresh seafood. This innovative packaging solution comes with the 10K OTR call out clearly printed on the bags to alert inspectors at any point in the retail or food service distribution system.
