PS 125™ /
PS 125 OneStep™

Tabletop Bagging Systems

Autobag®
BRAND AUTOMATED SYSTEMS

DESCRIPTION

AUTOBAG® Brand Tabletop Bagging Systems efficiently bag and seal your products. Available in two model configurations operating at speeds up to 25 bags per minute (BPM) for the PS 125™ and 15 BPM for the PS 125 OneStep™. These hand load machines bring simplicity, versatility and value to your low- to mid-volume production environment.

These tabletop baggers are simple to operate and offer innovative engineering in a straightforward, compact design. Equipped with a user-friendly display that enables easy access to operating parameters, job set-up, job storage, and on-board system diagnostics to simplify maintenance and maximise productivity.

The PS 125 OneStep™ includes the same conveniences of the standard PS 125™ with the addition of a built-in imprinter. It features next-bag-out printing technology, making it ideal for short run, order fulfilment, and e-commerce applications.
