

Sealed Air®

BRAND PROTECTIVE PACKAGING

ProPad Paper Cushioning System

Sealed Air® brand ProPad creates custom-length paper pads ideal for cushioning, blocking, and bracing.

BENEFITS

Operational Efficiency

- Requires minimal service and delivers greater uptime for a more profitable packaging operation
- Creates custom-length paper pads at speeds up to 150 per minute
- Seamlessly integrates into your current packaging operation
- Bottom-loading design for fast material changeovers

Product Integrity

- Delivers superior protective performance
- Holds product in place, preventing movement during transit

Package Optimization

- Dispenses in manual, auto-repeat, and sequence modes to help deliver the desired pad size on demand

Brand Experience

- Paper packaging material is curbside recyclable for added consumer convenience
- Available in 100% recycled paper packaging material

CHALLENGE

The pressure to provide packaging options that reduce environmental impact while still offering the same level of protection has become more important than ever. In fact, 75% of consumers worldwide now believe that living a sustainable lifestyle is important to creating a feeling of wellbeing.* As a result, offering consumers sustainable packaging has become critical to your success.

SOLUTION

The SEALED AIR® brand paper cushioning system increases fulfillment velocity with custom-length paper produced at up to 150 pads per minute, making it the fastest paper cushioning system on the market. It dispenses in manual, auto-repeat, and sequence modes to help meet your productivity goals, and is ideal for use in cushioning, wrapping, and blocking and bracing applications.
